

Dear boys and girls,

We hope you and your families are keeping well and that you are enjoying the sunshine. It is great to be able to play outside and meet up with a few friends again.

Next week is a short school week so we have assigned less work than we usually do. Please do as much of the work as you can. We would love to see photos of the work highlighted in yellow if possible. You can find answers to Mental Maths and last week's Maths worksheet on our website page if you would like to correct your Maths yourself.

On the week after next we will be assigning lots of fun activities covering science, technology, engineering and maths and then the following week will be the School's first ever virtual Sports Day! So you have lots to look forward to during the month of June. Of course, we would like you to keep up your reading too - another lovely activity.

We would also like to let you know that you will be remaining in the same classroom next year, as it would be very difficult for teachers to move to another classroom during the summer break given the current Coronavirus restrictions in place. So, if you were in Room 7 for First Class, you will stay in Room 7 for Second Class. Likewise, if you were in Room 8 or Room 9 last year, you will remain in Room 8 or Room 9 for Second Class.

Please make sure to store your school books away carefully over the summer as you will need to bring them in again after the summer break and you will be using them. If you have any school library books at home, or any other resources (levelled readers etc) please take care of them, as we will be collecting them when you return to school for other children to use.

Please continue to keep in mind the important advice about hand-washing, coughing and social distancing so that we all stay well.

Keep up the good work,

Stay safe,

Ms Bolton, Ms Corscadden and Ms Ryan
